MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: 117L Briefing at Hans-Woolridge
Plant, Denver, Colorado

1. Following my brief discussion of the subject with you and Dr. Scoville, I have established with AFCIN the date of 30 April for our briefing at Denver, and I am advised that General Walsh has approved this arrangement. A tentative flight schedule calling for departure from Washington about noon, 29 April, and return from Denver in the late afternoon or early evening of 30 April has been confirmed by the Director's office.

2. Colonel Macia, who secured General Walsh's approval for the briefing, has requested that he be permitted to travel with us as the AFCIN representative. He has also requested that we provide for six USIB Sentry Committee members, two each from the Army, Navy, and NSA. Accordingly, seven spaces on the aircraft are to be so allocated if you concur.

3. I should like to reserve ten spaces on the aircraft for myself and senior PIC staff members, including the Senior Army and Navy Military Liaison Officers to the Center, Colonel Allen and Commander Mize. I believe you understand my reasons for estimating that a very direct benefit will accrue to this group from participation in this briefing.

4. I would suggest that the DD/P be allocated three spaces, one of which would be filled by Mr. Reber in all probability.

5. It is hopefully anticipated that your schedule will permit you to head the visiting delegation as planned and, inasmuch as the aircraft will carry thirty-two passengers, eleven additional spaces are available for your allocation among DD/I offices. In summary, with your concurrence the space allocation would be as follows:

- | | |
|---|----|
| (1) Mr. Amory and 11 DD/I office
and/or staff representatives | 12 |
| (2) Ten PIC representatives
including one Army and one
Navy representative of the
Center | 10 |
